We would like to cancel this call as we don't have anything new to share and would like to give EPA some time to check in with other states/headquarters on the topics discussed on 1/4/17. We can certainly meet if anyone has anything to discuss. The MPCA will have something regarding antidegradation to share with EPA prior to the next call scheduled on 1/25/17.

The reoccurring meeting for our Wednesday EPA/MPCA call is being extended through July, 2017. The existing meeting schedule ends at the end of December. We are extending the meeting invite to get placeholders on calendars. The schedule can be adjusted as needed if conflicts arise.
